

4. Immortals

The Company of Immortals was created by the creators of a cultural television programme a few decades ago. From the candidates appointed by a professional board of trustees the television watchers select the artists who are worthy of the Company of Immortals Prize. Artists can receive the prize only once. The principal data of artists who received the prize since its creation are available in files *members.txt* and *categories.txt*.

1. Create a new database named *company*. Import the two text files, which are UTF-8 encoded and tagged by tabs, into the database with table names that correspond to the file names (***members***, ***categories***). The first line of the files contains the field names. Upon creation set the appropriate types and the primary keys.

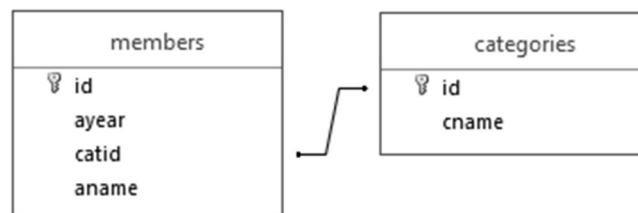

Tables:

members (*id*, *ayear*, *catid*, *aname*)

<i>id</i>	The identifier of the awarded artist (number), this is the key
<i>ayear</i>	The year of awarding (number)
<i>catid</i>	The identifier of the profession category of the artist (number)
<i>aname</i>	The name of the artist (text)

categories (*id*, *cname*)

<i>id</i>	The identifier of the profession (number), this is the key
<i>cname</i>	The name of the artistic profession (text)

When solving the following exercises, save the queries with the names given in brackets. Pay attention to displaying only the required fields in the solution.

2. Using a query, list the names of the artists who received the award in 2022 in alphabetical order. (***2awards2022***)
3. We are interested in the members who work in the acting profession, but there are several related profession names. Create a query that lists the names and professions of the members whose profession contains word part “***act***”. (***3act***)
4. In which years did more than eight artists receive the prize? Using a query, display these years and the number of awarded artists. (***4more***)
5. Using a query, give the number of artists belonging to the different professions. (***5professions***)
6. Using a query, list the names and professions of the artists who received the prize in the same year as actor “***Zenthe Ferenc***”. Display his name as well. (***6zenthe***)
